# GAC Dinner 2026 held in Bahrain

Over 140 guests attended the 15th GAC dinner in Bahrain on 4th November 2026.

**Mr. Khalid Al Rumaihi**
**Chairman - ALBA**

The guest speaker, Alba Chairman Mr. Khalid Al Rumaihi, said that despite the worldwide geopolitical situation, countries still need to trade, regardless of global tensions and rising protectionism.

He added that the GCC has shown resilience in the past and will continue to do so, relying on its strong institutions, ambitious economic visions, world-class industrial assets, and people committed to growth, innovation, and international cooperation.

The GAC Dinner is by invitation only and is attended by board members, CEOs, directors, and senior executives from the GCC aluminium companies, major international technology suppliers, power generation companies, and aluminium industry equipment providers. The event aims to strengthen relationships between aluminium producers in the Gulf and organisations with business interests in the region.

GAC thanks Alba for hosting and regional and international organisations for supporting the event.
